Peek Collection

design Studio Pastina — 2019

Peek is a modern trompe-l'oeil: the designer **Studio Pastina** - <https://www.midj.com/products/designers/studio-pastina> borrow the concept of breakthrough of the space from the art world: it plays with depth and perspective through the arc shape, to create a refined collection of mirrors.

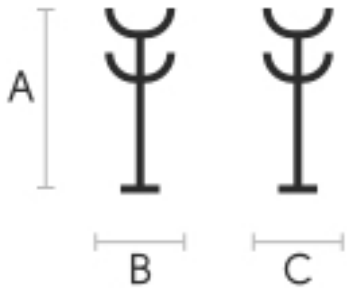

The arch shape and the smoky color on the side bands they give the illusion of greater depth, while the central space is reserved for the surface reflective. The mirror becomes dynamic and becomes an object of great personality.
